PROFILE

Full-Stack Software Developer with a full understanding in structuring, developing and implementing responsive applications. Proficient in HTML5, CSS3, jQuery, JavaScript, React, React Native. Currently Seeking a Full-Stack Developer position where I can utilize my skills and help achieve goals and optimize solutions.

PROJECTS

Space Battle

Space-Battle is a simple chrome console game which pits a single player and his/her ship against an entire AI controlled alien fleet.

https://amadi5892.github.io/Space-Battle/

JavaScript | CSS | HTML

Street Battle

a fun drag racing game where it's you, the computer and the road! You'll be prompted random keys for a quick duration where entering the right key will help you speed past your opponent, but be careful, the wrong key will slow you down.

https://amadi5892.github.io/Street_Battle/

JavaScript | CSS | HTML | jQuery

Pawtastic

a responsive form for clients to use to enter information about their pets while scheduling an appointment

https://amadi5892.github.io/Pawtastic/

JavaScript | CSS | HTML | jQuery

Aesop Replica

With a partner we made a replica of Aesop's, a skin care company, website. The collaboration project was focused on understanding and using GitHub, focusing on using branches, merges and fixing any merge conflicts that would exist.
